

All about knowing that everything in
an aircraft is interconnected

Aircrafting

Welcome to Fokker Technologies

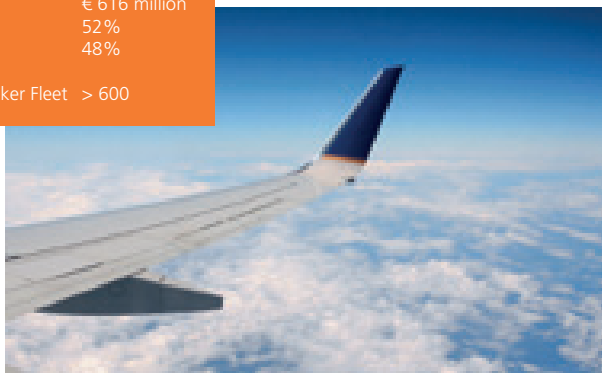

Fokker Technologies... an innovative leader in the aerospace industries: from design to services. We are one integrated harmonized global aerospace organization with a regional approach and presence. Working for valued customers, from major MRO's to Governments (defense). Having long term partnerships with leading OEM's. Preferred partner in both Aerospace Industries and Aerospace Services. Experts in new aircraft developments and in/out of production aircraft support and services.

Highlights

Founded in 1919 by Anthony Fokker.
Partner with integrator knowledge for major aerospace companies and airlines.
Global company represented in 15 countries.

Turnover 2010	€ 616 million
- Civil	52%
- Defence	48%

Operational Fokker Fleet > 600

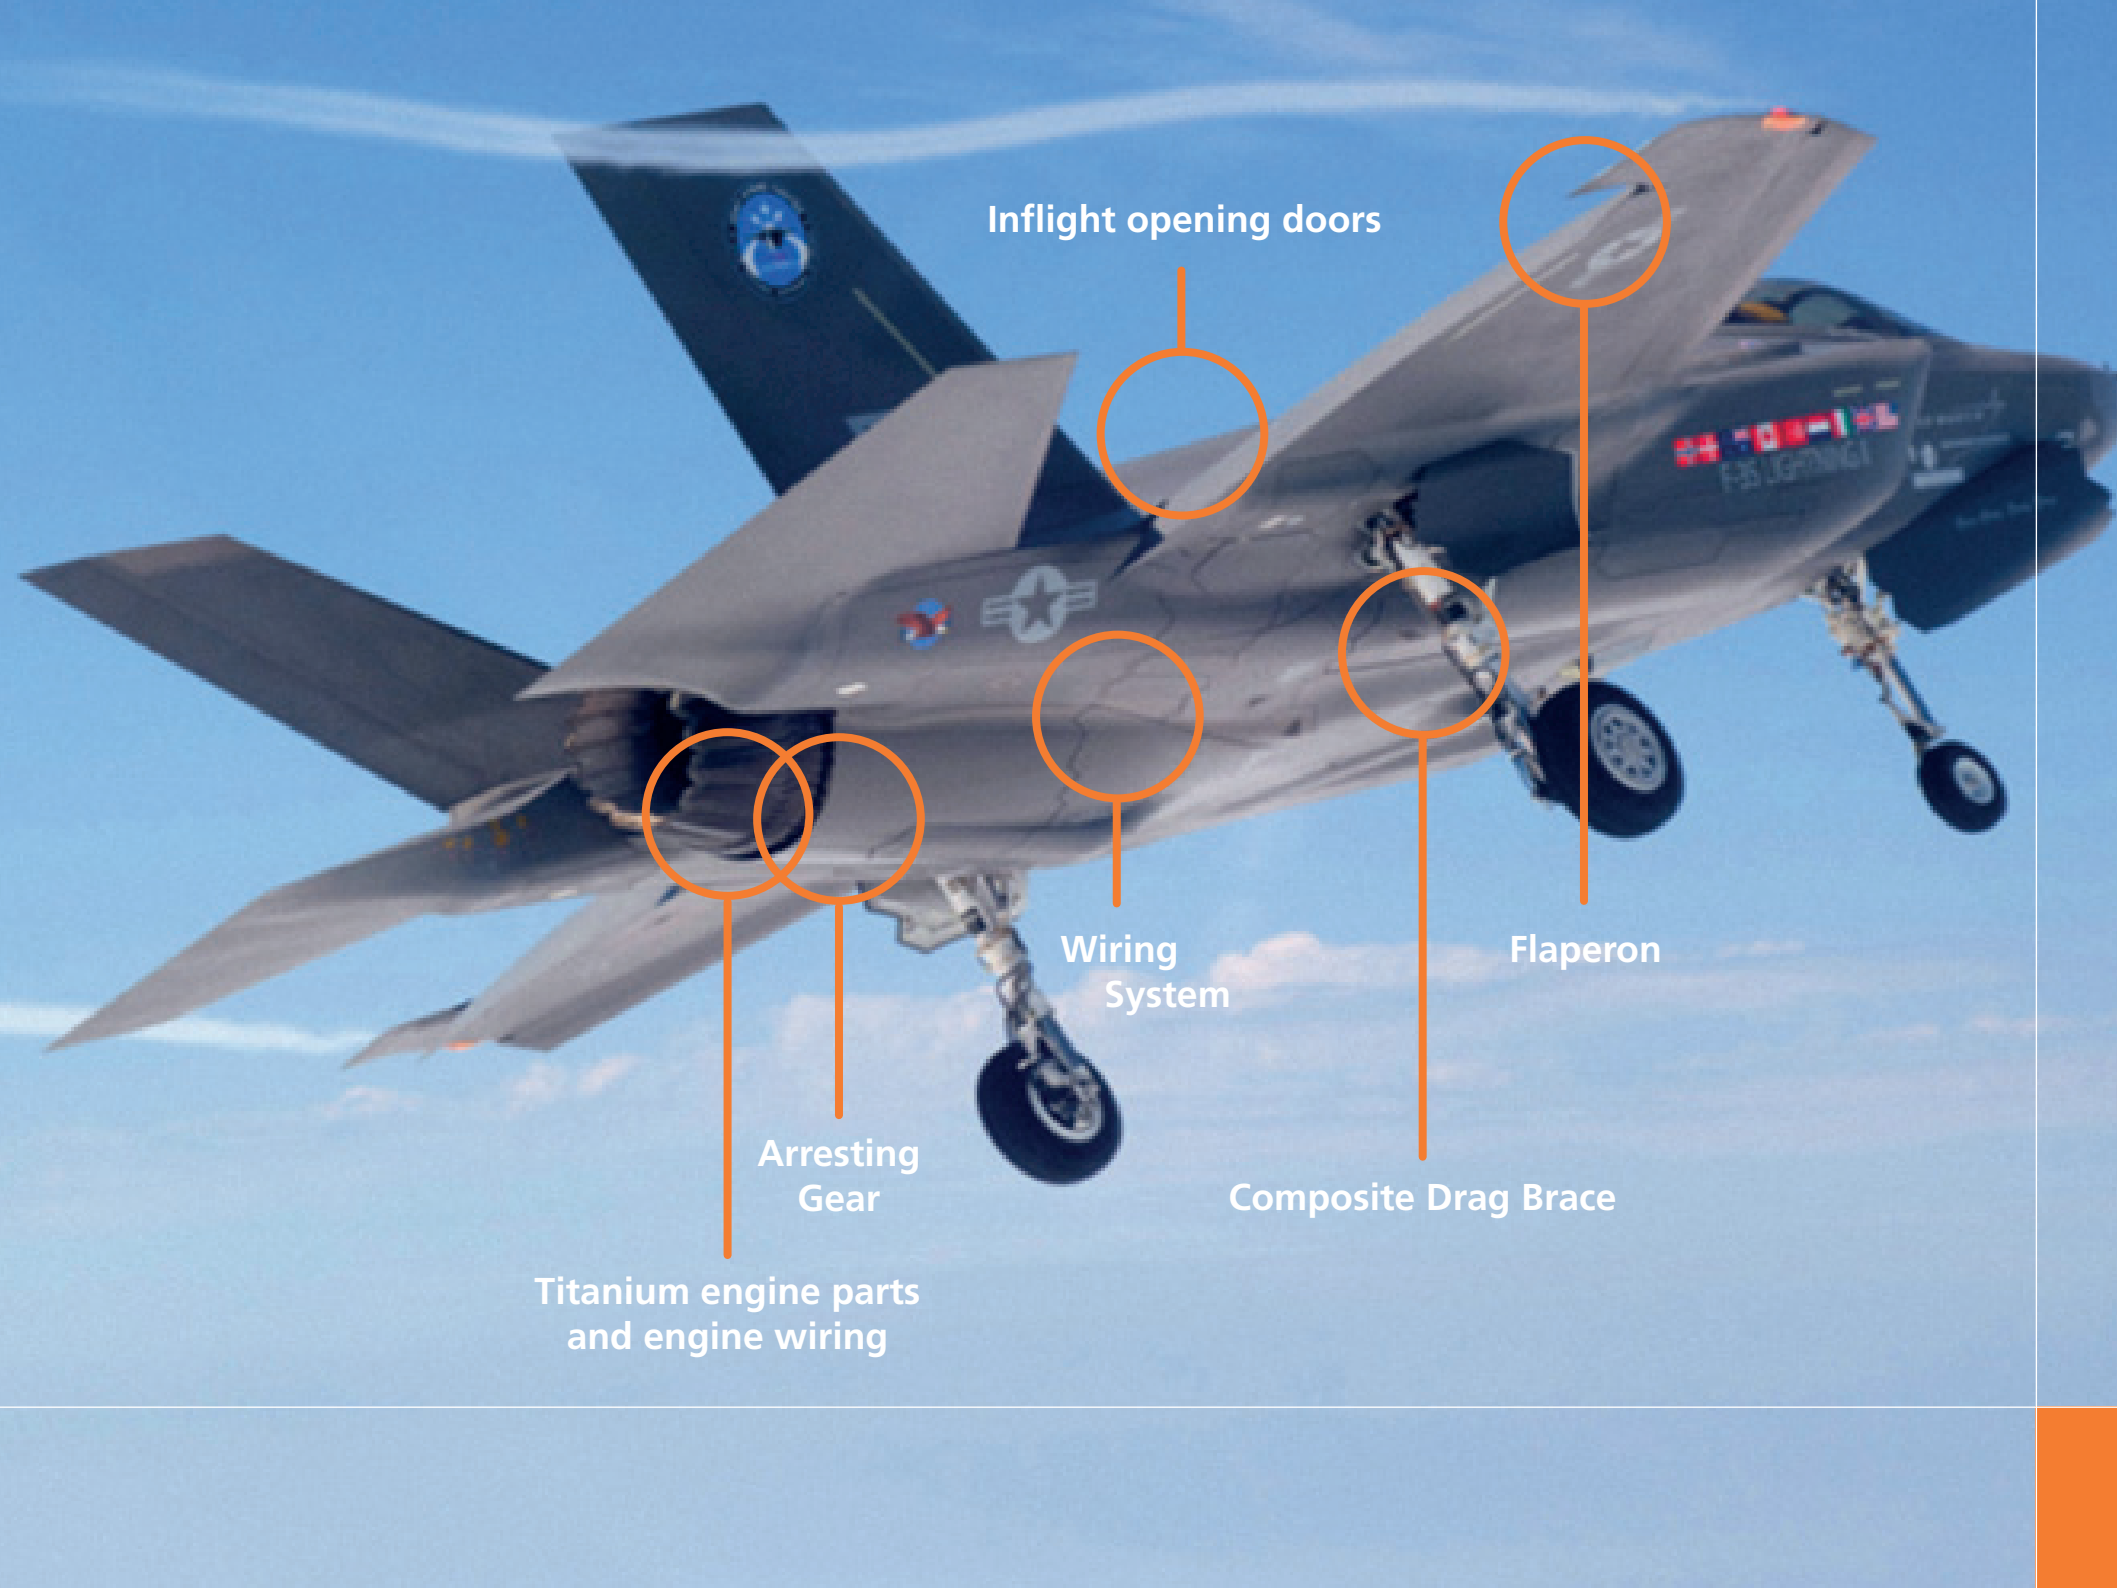

More than the sum of its parts

Fokker Technologies is driven to help you develop more competitive aircraft and to maintain, overhaul and modify aircraft. Helping and serving you with five business units: Aerospace Industries (Fokker Elmo, Fokker Landing Gear, Fokker Aerostructures). And on the other side, Aerospace Services: Fokker Services and Fokker Aircraft Services. So, Fokker Technologies is more than the sum of its parts.

One company, one word: Aircrafting

At Fokker Technologies each business embraces Aircrafting, a deep understanding of the total aircraft. A deeper knowledge that any design, repair or modification has a direct effect somewhere else.

Aircrafting is:

- A deeper knowledge that aircraft parts are somehow connected
- Like the human body, aircrafts are interconnected mechanisms
- In which the smallest detail plays a role in the total
- Knowing that changing one part means there's an effect elsewhere

To date

- 7.000 products
- > 75 different platforms
- 40.000 aircraft with Fokker signature

Customer benefits; strong partnerships and working with leading OEM's and operators; integrator know-how and innovations; present on all major platforms; award winning innovative drive; a worldwide

organization and more... Always & everyday doing more to improve your aircraft and delivering a great customer experience. That's where we stand for at Fokker Technologies. That's: Aircrafting!
